#### Company Profile

Our solutions consistently surpass our competitors in design, performance, project execution, delivery and cost savings. The reason for this is simple. It comes down to these three qualities our firm insists from all of our team members:

- **Passion**  
In order to truly dedicate yourself to your craft you must absolutely love what you do. We do! We have immersed ourselves in SharePoint as a development platform. We have done “almost” everything in regards to SharePoint. However, every engagement provides an opportunity to build upon on our experiences and expertise.
- **Experience**  
You must have a proven track record of customer / client satisfaction. We have 100% client satisfaction. All of our clients can be contacted for references! Both of our founders have over 10 years of SharePoint development and consulting experience. 10 years of SharePoint development and consulting experience. They both started their careers at the same consulting firm a long time ago. They ultimately went down their own career paths. Then their paths crossed again. Both had amazing careers and success. Ultimately, they decided to start their own firm specializing in SharePoint development.
- **Excellence**  
To us means an absolute commitment to employing only the industries proven best practices without exception, without compromise. Utilizing SharePoint as a development platform in the most innovative ways. Customizing and tailoring SharePoint to meet our client’s very specific needs. Exceed client expectations. Focusing on the “wow” factor with the solutions we provide.
